PROFESSIONAL SUMMARY

A motivated and technically driven Bachelor of Science in Information Technology student at the University of Eldoret, with a strong interest in software engineering, full-stack development, and innovative technology solutions.

Possesses hands-on experience developing personal software projects, including business management systems, interactive web applications, and responsive websites. Familiar with frontend and backend technologies, database management, REST API development, and application authentication.

Demonstrates strong problem-solving abilities, adaptability, independent learning, and a commitment to continuous technical improvement. Eager to apply existing skills in a professional environment while gaining practical industry experience.

EDUCATION

University of Eldoret
Bachelor of Science in Information Technology
Currently pursuing – Third Year

Relevant areas of study:

- Software Engineering
- Web Development
- Database Management Systems
- Programming and Algorithms
- Computer Systems

TECHNICAL SKILLS

Frontend Development

- HTML5
- CSS3
- JavaScript
- React.js
- Responsive Web Design

Backend Development

- Node.js
- Express.js
- RESTful API Development
- JWT Authentication
- User Authentication and Authorization

Database Management

- PostgreSQL
- SQL
- Relational Database Design
- Database Management

Programming Languages

- JavaScript
- C
- C++

Development Tools

- Git and GitHub
- Visual Studio Code
- Vercel
- Render
- Windows

PRACTICAL EXPERIENCE & PROJECTS

Independent Software Developer
Personal Projects | 2025 – Present

Developing personal software applications to strengthen practical programming skills, explore modern technologies, and solve real-world problems.

1. BizManager – Business Management System

Full-Stack Web Application

- Developed a business management application using React.js, Node.js, and Express.js.
- Integrated PostgreSQL for structured data storage and management.
- Implemented secure authentication using JWT and bcrypt.
- Developed product, customer, sales, invoice, and reporting modules.
- Implemented role-based access control for application users.
- Integrated inventory management and automatic stock updates.

2. Personal Portfolio Website

Frontend Web Development

- Designed and developed a personal portfolio website to showcase technical skills and projects.
- Utilized HTML, CSS, and JavaScript to create an interactive user experience.
- Implemented responsive web design principles.
- Published and maintained the website using GitHub Pages.

Live Portfolio: https://wernajal.github.io/Show-case-development-/

3. Interactive Web Applications

Independent Development

- Designed and developed interactive browser-based applications.
- Applied JavaScript to implement dynamic functionality.
- Practised modern frontend development and user interface design.
- Utilized GitHub for version control and project management.

CORE COMPETENCIES

- Analytical and problem-solving skills
- Independent research and continuous learning
- Critical thinking
- Technical troubleshooting
- Effective communication
- Adaptability and flexibility
- Time management
- Collaboration and teamwork

PROFESSIONAL INTERESTS

- Full-Stack Software Development
- Software Engineering
- Web Application Development
- Cybersecurity
- Artificial Intelligence
- Database Systems
- Emerging Technologies

CAREER OBJECTIVE

To establish a career in the technology industry as a software developer and eventually a software engineer. Committed to building reliable, scalable, and user-focused software solutions while continuously expanding technical knowledge and contributing to meaningful development projects.
